Experience

Twitter · Lead Product Designer

04/2021 - Present

- Twitter 2.0: Led design of the entire Monetization organization, including Twitter Blue, Creator Subscriptions, and Verified Organizations (all Elon direct initiatives).
 - Designed the E2E experience for Twitter Blue and launched it globally. Acquired **443K** blue verified subscribers in 3 months, leading to **\$43M** ARR.
 - Redesigned and launched Subscriptions service globally - increased creator signups by **270%** and gross monthly revenue by **211%**, 1 month post launch.
 - Designed and launched Verified Organizations globally. Acquired **36** verified organizations and **270** affiliates in 1 month, leading to **\$445K** ARR.
- Twitter 1.0: Led design of Performance Ads, including Dynamic Product Ads, App Ads, and Web Ads.
 - Led the design of Dynamic Product Ads and launched it to e-commerce SMB advertisers in the US. Resulted in over **150** customers and **\$1.4M** in 3 months.

Yahoo · Sr. Product Designer

07/2018 - 04/2021

- Led the redesign of Yahoo Sports mobile growth. Increased retention by **200%** YOY, DAU by **25%** YOY, and NPS by **10** YOY.
- Led the design of Yahoo Sports app NFL draft. Hosted more than **880K** total streams, increased draft tab DAU by **800%** YOY.
- Lead designer on Ad Builder. Led the incubated ad product migrated to Yahoo Native ad platform. Increased the original conversion rate by **284%**.
- Lead designer on DSP Media Planner. Self initiated and pushed forward the idea, pitched to VPs and got resources, then led it to launch.

Google · UX Design Intern

05/2017 - 08/2017

- Designed a user feedback flow for Smart Reply to make this AI feature even smarter. Incorporated research, led design, and **launched to all iOS** Gmail users.
- Led UX for a new UI framework that can notify users their mistakes before sending the email to reduce their awkwardness.
